EXPLORATION PRODUCTS is known worldwide as the leading source of innovative wilderness survival kits, and wilderness survival equipment enabling mankind to travel and live in some of the most remote regions on Earth. Since 1979 we have designed and supplied high quality gear to commercial, government and exploration groups world-wide.

Enjoy your journey through our world. We appreciate your visit and look forward to serving you in a prompt, professional manner with quality products and pricing.

Survival Kits

wt. 20 lb. See website or call us for kit contents!

deHavilland Survival Kit: An article in The Aviation

Consumer called the deHavilland Survival Kit "the best of the small, pre-packed mail order kits." We've greatly improved the whole kit since then. Designed for 2 people in light, private aircraft around the world; can easily be upgraded for 4 or more people. As with all of our kits, the contents are vacuum-packed against spoilage, and light or absent-minded fingers. Non-Hazardous material. Shipping

P/N 570005 \$450.00

Upgrade your deHav Kit for four with extra food, water, smoke signal and Pocket strobe

P/N 570006 \$100.00

Overland Survival Kit: Looking for an economical 2-person survival kit? Try our Overland kit, a fairly complete kit based on the old SAF Enterprises kit and similar to the two-man survival pack sold by Sporty's with some modifications for improvement. Like most of our kits, we pilfer-proof the contents so that when you need an item, it will be there. Packed in a high quality shoulder pack, red in color. Pack includes extra pockets for an ELT or Cell Phone, adjustable padded shoulder strap and external pocket for easy access to your own haz mat items. Water containers are included, but not filled. Medical items are packed in a small separate red bag which is inside the shoulder pack. We purposely left space for you to add items to this kit for your unique needs. Size is approximately 12" x 20" x 4". *

P/N 550179 \$275.00

Field Survival Kit: No one should be working in remote field locations without this kit or something like it at hand. Many of the same basic survival items as in the Vest Kit. Packed in a 200 cubic inch belt pouch. You are welcome to add items appropriate for your specific location and use; such as cold weather items desirable for the Arctic. To transform this into a desert survival kit, add packets of emergency drinking water (P/N 650005). *

P/N 570009 \$200.00

Juneau Survival Kit: A truly functional and economical individual kit we developed in conjunction with the Juneau office of the USFS. These kits are mandatory for all Alaska USFS employees working in the field. *

P/N 570011 \$40.00

Flight Vest Kit: The flight vest itself is our multi-pocketed Mesh Vest. Items included are basic, practical items de rigueur. Plenty of room left for your own items. See website or call us for kit contents.

P/N 570007 \$300.00

Survival Kits

Pocket Survival Pak: This is the kit designed by Doug Ritter, head of Equipped to Survive. This kit contains a collection of survival tools for when you find yourself abandoned, stranded or lost in the outdoors. Keep it in your pocket, or on your person. This compact kit is perfect for backpackers, hunters, pilots, snowmobilers, hikers or anyone who spends time in the great outdoors! Weighs 3.9 oz and measures 4" x 5" x .652". Contents include: Fox Whistle, Signal Mirror, Compass, Firestarter, Tinder Quick, Duct Tape, Scalpel Blade, SS Utility wire, Magnifier, Nylon thread, nylon cord, fish hooks, sinkers, swivel, sewing needle, aluminum foil, safety pins, pencil and waterproof note pad, contents list and Waterproof Survival Instructions!

P/N 640009 \$27.50

You Can Survive Kit: A compact Outdoor Survival Stove and supplements sealed inside a 6 inch steel can measuring 2.5" x 3.5". The can may be used as a cooking pot or a drinking cup. The rip top can contains: A folding wing stove, solid fuel heat/cook tablets, strike anywhere matches (box of 20), zip-loc storage or water collecting bag, 2 tea bags, 2 sugar packets, 4 pieces of hard candy, 2 packs instant broth, 1 pack high energy drink mix, aluminum foil, survival instruction sheet, re-sealable top. This kit is intended to provide psychological and physical assistance when lost or stranded.

P/N 640005 \$9.25

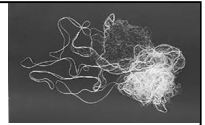

Emergency Freshwater Fishing Kit: A practical item, and the standard for all Exploration Products Aviation Survival Kits. The Emergency Fresh Water Fishing Kit is an improvement over the old military fishing kit which we found to be too-expensive, too hard-to-get, and often did not match real applications. The Emergency Fresh Water Fishing Kit is designed for overland flying. **P/N 550067 \$25.00**

Small Emergency Fishing Kit: Here's a kit we make and provide to military survival school trainees around the country via their BX. This compact kit weighs only 1.5 oz. and measures 2.75" x 1.25". Inside the clear plastic vial we provide 8 lb. Monofilament line, 2 sz 10 snelled hooks w/ leaders, 2 sz 10 or 14 trout flies, 2 sz 7 split weights, 4 size BB split weights, 4-6 mini marshmallow baits, 2 matches and a straight razor blade. This kit is not nearly as complete as our #550067 Fishing kit, but is a good choice if size and weight are a consideration in your survival kit. **P/N 550181 \$6.00**

Gill Net: The Gill Net is the perfect complement to the Emergency Fishing Kit. This large (12' x 4') survival fishing net is ideal for stretching across a creek or stream. Simply improvise weights for the bottom and floats or tie-offs on top to use. **P/N 550069 \$14.00**

Aircraft Survival Kit: This kit to meets the ALSE Handbook requirements for the aviation first aid kit covering 0-9 passenger seats. The kit items are stored in a dust-proof, moisture-proof container. Aircraft first aid kits and survival kits are required for all US DOI flight activities other than point to point flights, and airplane operations above 500 feet AGL, and are recommended for all missions. You will also find everything here at our store to meet the survival kit requirements as well. Contact us for assistance in meeting the Aviation Life Support Equipment handbook requirements for first aid and survival kits. **P/N 640050 \$50.00**

First Aid Kits

Comprehensive Kit: Most advanced first aid kit in this size package. This kit was designed for workers and travelers in remote wilderness and Third World locations. Kit within a kit. Features include wound management with irrigation syringe and 18 gauge catheter, SAM splint, Sawyer extractor, hypo and hyperthermia thermometers, oral re-hydration salts, EMT shears, tweezers, glucose gel for treating hypothermia and insulin shock, large trauma dressings, a dental kit and a full complement of bandages. Size: 11"x7"x4.5". **P/N 700008 \$160.00**

Emergency Dental Kit: We shouldn't go anywhere anymore without an emergency dental kit. Not much worse than a toothache when you are far from a dentist. Contents include a dental exam mirror, dental stick, toothbrush, toothpaste, floss, cotton pellets, tweezers, Eugenol (85%) for toothache relief, Cavit temporary filling material, aspirin and gauze pads. All packaged in a plastic bottle 6.5" tall and 2.5" round, use as a drinking/ rinsing cup. **P/N 700014 \$20.00**

Suture & Syringe Kit: This kit is designed for use by medical professionals or the lay person traveling to remote areas or foreign countries. The non-professional can hand the kit to a professional and be confident that clean, sterile supplies will be used to protect them from unsanitary conditions. The needle holder, scissors, and forceps are sterilized. Contains sterile supplies for suturing, debridement, treating abscesses, immunizations, injections of medication or anesthetic, or for starting and delivering IV's. Add your own injectible anesthetic to complete the kit. Size: 11" x 6" x 2.5". **P/N 700013 \$55.00**

Personal First Aid Kit: Previously known as the "Optimist Kit". A small affordable kit with the quality ingredients you expect from Adventure Medical. Keep the Personal Kit tucked away in your kit or pack, or wear it on your belt. Includes many basic essential items of the other kits. Shipping wt. 6 oz. Size: 6"x3"x2". **P/N: 700012 \$15.00**

First Aid Kit with manual: This is a basic kit which meets the Red Cross standards. It includes 68 pieces of what you really will need in an emergency all enclosed in an easy to store, attractive plastic case with a weatherproof seal. **P/N 700015 \$18.50**

Other First Aid Items

Sawyer Extractor: The most effective item available for first aid treatment of snake bites as well as bee stings and insect bites (including mosquitoes, ticks, scorpions). Easy to use, hand held pump which creates safe and powerful suction on the surface of the skin. Removes poison and irritants from bites and stings by drawing it out through the same hole it was injected. A must for anyone who experiences serious reactions to any kind of bite or sting. Includes The Sting Book: How Every Sting Affects You the Rest of Your Life and the Bite Book: Facts About Poisonous Snakes. **P/N 700020 \$16.50**

Sam Splint: This marvelous, multi-purpose splint has been used to stabilize injuries to virtually any extremity, and even as a neck collar. The SAM Splint, a malleable metal, foam laminated splint, is simple to form and contour. It is universal enough so that you need to carry only one splint to serve all your splinting needs. Reusable. Far superior to wire ladder and other splints. Compact 4" diameter by 4" high package and weighs only 5 oz. Included in most of our larger survival and first aid kits. **P/N 700019 \$15.50**

SAS Essential Survival Guide: A general survival guide containing detailed information on basic survival in any situation. Based on proven SAS training techniques. It may save your life! **P/N 600042 \$14.50**

Navigation & Tools

Voyager Compass: Also known as the Landmark, the Voyager features a righting mirror for quick, accurate bearings. The protractor base plate has an inch scale and directional arrows for use with or without a map. Also has a v-sight, orienting arrow, center spotter and luminous points on the needle for night use. Five degree graduations. The most versatile compass. Standard USAF issue. **P/N 800002 \$22.00**

USAF Pilot Survival Knife: Genuine US Air Force issue pilot survival knife. 9.5" overall length with 5" carbon parkerized blade. It has a saw-tooth back edge and a hardened hexagonal butt for hammering. Steel guard pierced with 2 holes to lace on shafts (to make a spear). The leather sheath is riveted for strength and includes carborundum sharpening stone. Manufactured by Ontario Knife Company. **P/N 550036 \$41.00**

Star Compass: Also known as the Polaris, our most popular compass. Clear base plate for easy map use, with inch and millimeter scales. Two degree increments. The standard compass in Exploration Products Survival Kits. **P/N 800003 \$12.00**

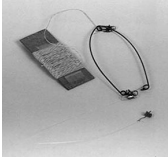

SOG Paratool: One of the most versatile pocket tools ever produced. The Paratool offers twenty powerful features to help you get the job done. Angle-headed pliers with needle nose ext., three straight-point blades, a sheepsfoot blade, three flathead screwdrivers, a Phillips #1, can/bottle opener and more. All in stainless steel for wetter climates. A combination of compactness, versatility, and one-handed operation. Size closed: 4". **P/N 550033 \$60.00**

Pocket Chain Saw: Here's a human-powered chainsaw that comes in a can. The Pocket Chain Saw's 124 bi-directional teeth cut on both up and down strokes. Wraps around limbs, branches, trunks to cut on three sides at once. The saw comes with ring handle brackets and is packed in a 2.5" tin. Cuts phenomenally fast. Use to clear heavy brush, downed timber to 5" diameter or cut firewood. Popular military model. Weighs 6 oz. including carrying tin. **P/N 550044 \$20.00**

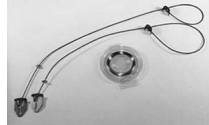

Speedhook: This is the military version of the Speedhook which is so effective it is outlawed in the state of Minnesota. It's like a mousetrap for fish. Bring the spring arms together and set the latch hook. When the fish nibbles the bait, it springs the trap and sets the hook. Shameless fishermen will love it. Guaranteed to work. Survival use only. **P/N 550068 \$10.50**

Parachute Cord: No one should be out in the woods without a good sized hank of Parachute Cord. This cord is a kern-mantle construction (sheath over braided core) with 500 lb. overall tensile strength. In a pinch, you can unbraid the core strands and use them individually. Paracord's possible uses are truly endless. 100' length. **P/N 550066 \$4.50**

Survival Snares: These are the famous Thompson Survival Snares. Utmost in quality. These self-locking snares will trap small animals, birds, grouse, squirrels, weasels, rabbits and the like. Two snares and tie wire included with complete instructions and illustrations. Add our 24' roll of 20 gauge brass wire and you're good to go! **P/N 550070 \$11.00**

Brass Wire: Like duct tape, brass wire has a multitude of uses limited only by your imagination. This 24' roll of flexible 20-gauge brass wire can be used for snares, securing your gill net, lashing items together, hanging items, etc. **P/N 550177 \$1.75**

Commando Saw: Cuts metal, wood, plastic, bone, etc. Sturdy handles to hold onto. Compared to other spiral saws, this is a far stouter version. **P/N 550046 \$6.75**

Personal Protection

2 Person Tube Tent: Lightweight, yet durable, the 2 Person Tube Tent is a 8' x 12' heavy gauge plastic tube that provides shelter, a method of water collection, and signaling. Bright orange. Perfect in a kit where a tent is just too big. Use with our parachute cord.

P/N 550059 \$5.00

1 Person Storm Shelter: Emergency shelter weighs only 5 oz., but measures a full 80" x 96" when used as a tube tent. Compact size and weight makes this shelter a must for pocket or vehicle style survival kits. Use with twine, wire or our parachute cord. Yellow in color.

P/N 550060 \$4.50

No-See-Um Mosquito Headnet: Made of ultra-fine mesh to deter even the most aggressive of insects. No shape control rings so this headnet can be very compact for storage. Sized to accommodate most hats and has an elastic neck for a snug fit. Green color.

P/N 500109 \$3.50

Mosquito Headnet: Loose fitting headnet can be worn over normal cap or by itself. Unlike other types, the Mosquito Headnet has built-in shape rings to provide 360 degrees protection.

P/N 500001 \$4.50

Cutter Insect Repellent: This convenient stick-style repellent is great for kits. Measuring only 1" x 3" and weighing only 1 oz., long lasting protection (30% DEET) is waterproof and is easily applied to face, neck and legs to repel mosquitoes, ticks, flies, gnats, chiggers and fleas.

P/N 570036 \$5.50

Ben's Insect Repellent: 100% DEET lotion which has proven to be most effective in repelling mosquitoes, black flies, biting midges, sand flies, chiggers, fleas, ticks and other pests. Up to 10 hours protection. 1.25 oz. bottle.

P/N 450001 \$5.00

Parachute Cord: No one should be out in the woods without a good sized hank of Parachute Cord. This cord is a kern-mantle construction (sheath over braided core) with 500 lb. overall tensile strength. In a pinch, you can unbraid the core strands and use them individually. Use it to support tube tents, make a lean-to, lagging logs together, even hang the clothes out to dry. Paracord's possible uses are truly endless. 100' length.

P/N 550066 \$4.50

All-Weather Blanket: This is an incredibly tough, non-porous blanket that is made of a fiber scrim backed with a reflective aluminized material. Developed for NASA. This blanket reflects as much as 80% of your body heat. It can also be used as a ground cloth, shelter, stretcher and for many other applications. Grommets at each corner so you can rig it if necessary. The bright orange color allows it to be used as a signaling blanket. Silver on other side.

P/N 550062 \$11.00

Emergency Bag: This bag is designed to be used as an emergency sleeping bag. We feel it is better suited as a bag cover. Can also be used inside your sleeping bag to increase warmth. Made of the same tough material as the Emergency Blanket.

P/N 550063 \$10.50

Emergency Blanket: Fits in a pocket, yet opens up to a full 56" x 84". Remains flexible to -40°. Use as blanket, ground cover, radar marker, etc. Retains up to 80% of your body heat, yet weighs only 2 oz. A must in every survival kit.

P/N 550064 \$3.25

Coppertone SPF 30 Sunscreen: Famous Coppertone brand sunscreen gives you all day protection with a SPF rating of 30. This advanced dry sunscreen lotion is sweatproof, waterproof, and offers both UVA and UVB protection. Convenient 1 fl.oz. size is a must have for survival and first aid kits. Tube measures 4.5x1".

P/N 700001 \$3.00

Disposable Sunglasses: Lightweight, one-size fits all disposable sunglasses fold flat. Adjustable cardboard temples. Great item for survival kits, car glove boxes and flight bags.

P/N 550180 \$1.00

Signaling

Star Flash Signal Mirror: Air Force survival instructors rate the signal mirror second only to the radio as the most important piece of survival equipment. Designed by a former USAF survival instructor. Put a Star Flash in your home, vehicle, or other emergency kits for day or night (with a light source) rescue signaling. Built of Lexan, the Star Flash Mirror floats, is lightweight, nearly unbreakable, and easy to aim through the trademarked star. Reflects up to 100 miles. Size is 2" x 3".

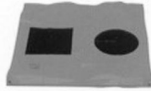

P/N 550030 \$10.50

Sea & Snow Dye Marker: Here's a versatile Dye Marker from Orion. The Dye Marker marks your position either in water or on snow and is environmentally safe. Orange powder turns bright fluorescent green upon contact with water. Extremely reasonable in price. No pilot should be without one. Sold individually.

P/N 550081 \$6.00

Signal Flag: The 3' x 3' flag is also known by other names: International Distress Flag, Signal Flag, even Conspicuity Panel. The Signal Flag is used for continuous signaling of aircraft. International orange in color, it can be used to mark landing sites, gain the attention of aircraft, or signal your location. Endless uses. Provides excellent contrast on the snow or in the woods. The US Forest Service uses these. A valuable, yet compact, lightweight tool at 5 oz.

P/N 550065 \$10.00

Lifesaver Whistle: World's most advanced whistle features ABS plastic case, large tooth grip for hands free use, lip seal to prevent loss of air in cold, non-absorbent peas, waffled Shur-grip and locking safety clip. In many tests the high shrill of the pealesse whistle blends in with the howl of the wind. The different sized chambers and peas on the Lifesaver create a loud staccato sound and full spectrum of pitches breaking the howl of the wind alerting people that help is needed. With a volume up to 118 dB, this whistle can be heard over large crowds, water, howling winds and other loud natural noises. Unique design meets anti-choking standards for children. Only requires 1/3 the air required for a normal whistle to achieve full loudness. Meets and exceeds USCG and SOLAS regulations.

P/N 550161 \$4.50

Fox 40 Whistle: The Fox 40 is the loudest rescue whistle available. Specified by the DOD, and found in US military survival kits. The signal easily attains 115 decibels, produced by 3 tuned air chambers that produce slightly different frequencies. This causes a complex sound phenomenon called a "beat" or "trill" giving the human listener more auditory cue to perceive and locate the source of the whistle in a rescue situation. The pealesse air chambers clear instantly of water or saliva when blown, so it can be used even when submerged. We recommend earplugs when testing. Comes in many colors, let us pick for you!

P/N 550162 \$5.50

Marine Whistle: Whistle is flat with a built-in clip so it fits in some survival kits better. Has a pealesse design allowing use in water like the Fox 40. Loud, shrill, dual tone, audible at great distances. Should be attached to all life jackets, rafts, and foul weather marine gear. A standard in all our survival kits where volume is an issue. USCG approved.

P/N 550032 \$1.50

Firecraft

4" Fire Starter Flint: Heavy Duty, functional and simple to use, measures 4" long x 1/2" diameter with lanyard. We include one in almost every survival kit we manufacture. Each pass on the large flint surface produces an impressive shower of hot fire-starting sparks.

P/N 550055 \$16.00

Wet Fire Tinder™: An amazing fire starting tinder. Non-Toxic odorless, smokeless and can even start a fire in the driving rain! In fact, it burns longer when wet! A small pile of tinder shavings is all you need to start a roaring fire. Use with our #550055 4" flint. Box of 8 individually wrapped cubes.

P/N 550053 \$6.50

Fire Sticks: Waterproof. Start fires quickly and safely. Non-toxic sticks leave no odor, burn completely and light even after being submerged in water. Many other uses: you can burn these inside a Sierra cup for light & warmth, use as a flare marker and even to cook with. Pack of 12.

P/N 550123 \$1.50

Lightsticks: Light without heat, spark or flame. Lightsticks are non-flammable and windproof and are ideal in emergency situations where a spark or flame may be dangerous. Use for signaling, marking runways or landing zones, or shelter lighting. To activate remove wrapper, bend the Lightstick and shake. Twelve hours of continuous light.

P/N 290008 \$1.00

SPECIAL PRICE WHILE SUPPLIES LAST!

Nuwick™ 44 Hour Candle: A revolutionary, fail-safe source of lighting, heating and cooking all in one. The secret behind this candle is the wick. Each wick is moveable, reusable, non-toxic and waterproof and will last 25-40 hours. For light just ignite one wick. To cook use two. To increase capabilities even further use up to three at a time. Each self-contained candle includes specially formulated, non-toxic, slow burning paraffin, moveable wicks, a tweezer for moving wicks, and matches. This candle can save your life!

P/N 550158 \$7.50

Lifeboat Matches: Come in their own watertight drum. These matches are varnished so they will light even when wet and continued to burn in wind, rain, or even underwater. Twelve second burn time. Ideal for starting fires in an emergency. Each drum contains 25 matches.

P/N 550057 \$4.25

Matchcase: The bright orange plastic matchcase has an O-ring gasket on the lid to keep your matches dry. Striker on the bottom. An absolute requirement for any kit.

P/N 550058 \$1.25

Sustenance

Potable Aqua: These germicidal tablets have been relied upon for years by campers, hikers, boaters, and others. Probably best suited for occasional use and where the bugs in the water aren't absolutely insidious. Effective against Giardia and other waterborne pathogens. Use 1-2 tablets per liter of water. 50 tablets per bottle.

P/N 270001 \$6.00

Potable Aqua Plus: Includes a 50-tablet bottle of Potable Aqua as above, but with the addition of a 50-tablet bottle of P.A. Plus which removes all taste of iodine.

P/N 270025 \$9.00

Packaging Vial: These small glass vials with Teflon screw cap are perfect for re-packaging Potable Aqua tabs.

P/N 550020 \$2.00

Emergency Water: Emergency drinking water in a 4.25 oz. posi-sealed packet. Guaranteed pure. Five year shelf life. We supplied these to Northrop for the survival kits on the B-1 bomber. Sold by the box of 60 or each. Each box weighs 19 pounds and will incur extra freight charges.

P/N 650005 \$22.00 cs/60

P/N 650004 \$.50 each

Water Bag: We include this bag in most survival kits we design. Lightweight, durable two gallon PVC bag. Built in carry handle for portability. Rolls completely flat and folds up when empty. Use for water collection, purification, even as a pee bag on longer flights.

P/N 550071 \$2.60

Sierra Cup: The indispensable Sierra Cup. Use them for boiling water, cooking, containing small fires, purifying water, or mixing just about anything you might want to drink. Two sizes available, the standard 1-cup version (8oz) or the jumbo 2-cup (16oz). Both are made of durable stainless steel with a heavy gauge wire handle.

8 oz. Sierra Cup P/N 550083 \$3.75

16 oz. Sierra Cup P/N 550072 \$4.25

Esbit Stove®: The original pocket stove. Compact and lightweight fold down pocket stove is an extremely efficient cooking appliance designed for a wide variety of outdoor uses. Comes with 6 solid fuel tablets. Each tablet burns at 1400° for 12-15 minutes. Odorless, non-toxic and leaves no ash residue.

P/N 550089 \$10.00

Esbit® Tablets, box of 12 P/N 550090 \$6.00

Emergency Preparedness Kits

Deluxe 4-Person 72 Hour Emergency Preparedness Kit

This 4 person, 3 day survival kit is packaged in a 5 gallon container and designed for the home. This comprehensive survival kit contains the most effective emergency supplies for emergency preparedness including the emergency food, water, lighting, radio, first-aid, sanitation, and shelter supplies to prepare your home and family for all disasters. This deluxe kit also contains a Dynamo Hand-Crank Powered Light, Radio, & Cell Phone Charger with a universal adapter, water purification tablets, pry bar, duct tape and more! See website or call us for a complete list of kit contents.

P/N 580000 \$100.00

Vehicle Road Warrior Kit

We all know the stories of the unfortunate circumstances when people are stranded in their vehicles. We kid ourselves when we think it can't happen to us. Today's on the go families spend more time than ever in their vehicles. Vehicle emergencies can be anything from getting lost, running out of gas, weather related issues to transporting in an emergency. You must be prepared to resolve a problem on your own, wait for assistance or transport your family to safety.

Your vehicle is an important place in an emergency. You may be in it when disaster strikes, you may drive it to evacuate to safety or it may provide shelter for you and your loved ones.

Preparing your vehicle must be an essential part of your emergency preparedness plan. Print out our "Prepare Your Vehicle" page on the **Freebies & Links** pages. See website or call us for kit contents.

This kit provides for most road emergency situations. All items are packed in a heavy-duty backpack. Put it in your car and it will be there when you need it.

P/N 581000 \$75.00

The Humane Society says:

"DON'T LEAVE YOUR PET BEHIND!"

Dog-Gone-It Emergency Preparedness Kit

Your dog is an important family member who has to be considered in your emergency preparedness plan. Ordering Information

Thank you for embarking on this journey with Exploration Products. We are equipped to receive your orders by telephone, mail, fax, e-mail, or through our web site. Most orders are shipped within 2 workdays unless you specify otherwise. We offer rush services where possible for those of you in a real hurry!

Telephone Orders: Call us toll-free from the 50 United States at 1-800-448-7312. All others may call us on our regular lines at 1-509-468-5103. Telephone orders are accepted from 8:00 AM through 5:00 PM PST, Monday-Thursday with the exception of all major Holidays. Please leave a message...we WILL return your call.

Mail Orders: If you would like to order by mail, send all information required including item description, item number, shipping address, phone number and method of payment to: Exploration Products, 15115 N Little Spokane Dr, Spokane, WA 99208.

Fax Orders: If you have a fax machine, you may place your order via our fax lines 24 hours a day, 7 days a week. Worldwide toll-free access is 888-468-8057.

Online Ordering: You may place your order over the internet via our secure online order form. This can be accessed at our website: www.ExplorationProducts.com or www.epcamps.com.

Backorders: If an item is out of stock at the time you place your order we will keep it on backorder and ship it to you as soon as it becomes available, unless you specify otherwise. We may cancel backordered items on international orders if the cost of shipping them would be prohibitive. If you do not wish us to backorder items for you, please inform us at the time you place your order.

Special Order Items: As you know, Exploration Products only catalogs a small percentage of the unique products available to you. Special Orders for non-catalog items are almost more common than catalog orders, we welcome your inquiries.

Returns: We want you to be completely satisfied with your goods from Exploration Products and we will gladly exchange, replace or refund any merchandise that doesn't meet your expectations, if returned within the first 30 days, and subject to the following conditions:

Returning Items: If you need to return an item for any reason, please call before shipping the item to us. We will discuss the problem and issue a Return Merchandise Authorization (RMA) number. Please place the RMA number on the outside of the box. Returns not bearing an RMA number will not be accepted. All returns must be shipped with the freight prepaid, properly packed and insured for the full value of the part. Returns sent to us COD will not be accepted. You may be subject to a 20% restocking charge.

Non-Returnable Items: The following items may not be returned for refund or credit: dated materials such as batteries, food and water rations, survival and first aid kits in which any seals are broken, and all special order or customized items. You may not return any item that has been used and is not found defective by our definition.

Defective Items: Should you receive a defective item, we will be happy to replace it. Some items may need to be sent to the manufacturer or a service representative of the manufacturer near your location for warranty repair.

Use of your private information: We ask you only for the information we need. You can browse our online Resource Guide in complete anonymity. When you make a purchase, we ask for your address and credit card information for billing and shipping purposes. If you send us feedback and request a response, we ask for your e-mail address. All of this information is kept only at Exploration Products. **We do not share our corporate information with anyone.** Therefore, your private information shared with Exploration Products will not be made available to any other company or entity. Period.

Shipping Information

All orders carry a shipping charge depending on weight and carrier. This is automatically calculated on the website. Please contact us for a specific quotation if ordering by mail.

SHIPPING METHODS:

U.S. Postal Service & Priority Mail: This service is available to all addresses in all 50 states. Delivery time is 2 to 3 days. This is our first choice to send your order to you. We use this service when you have a PO Box address only. Our Armed Forces customers with forwarding addresses via APO boxes will receive orders this way as well.

UPS Ground: This service is available to almost all addresses within the 48 states. This is our secondary shipping method. We like this service because it allows us to track your shipment. Expect a four to seven day delivery time.

UPS 2nd Day Air: This service is available to almost all addresses within the 48 States as well as Alaska and Hawaii. This is our primary rush service available to those who need quick delivery and like UPS Ground, we are able to track your packages.

US Mail Global Priority: For International Delivery in 2-3 days on most items. Generally the most economical method.

UPS International Delivery Services: Same type of dependable door to door service on an International level. Standard services are 3-5 days for delivery. Please call us for rates.

Federal Express International Priority: Please call for international delivery schedules. Delivery schedules vary from overnight to 3-day service.

Oversized Item International Airfreight: We do business with several international airfreight companies. Federal Express even provides a "Heavy-Weight" service. We use these carriers for orders containing items too large to ship via Standard Federal Express or US Mail. Delivery time is anywhere from two to ten days depending on customs clearance issues, choice of carrier and their respective flight schedules.

Damaged Shipments: We take pride in packaging our shipments securely. Damages or shortages are rare but please check all items immediately upon receipt. There is a time limitation for making a claim so if an item has been damaged during shipment, notify the carrier immediately. Keep the package, all packing materials, and all of the items together. The carrier will come to your location to inspect the package and contents, and will return the damaged items to us. We'll settle the matter with them and ship a replacement item to you.

Items Ordered in Error: If, upon receipt of your order, you determine that you have ordered the wrong item, or you decide that you no longer want the item you ordered, please call us immediately. We will be happy to exchange the item you ordered for the correct item or refund your money within 30 days of delivery. You may be subject to a 20% restocking charge.

Items Shipped in Error and Shortages: Please check all packages immediately upon receipt, and notify us at once if you discover an error or shortage. We will ship the correct item to you or refund your money in full.

Undelivered Shipments: UPS and most other carriers will leave a notice at the shipping address and/or return on another day to attempt delivery if they are unable to deliver your shipment to the specified address. If they are still unable to make delivery, the package will be returned to us. We will then contact you to make further arrangements. If you refuse delivery of a shipment that you ordered from us, the package will be returned to us. We will then contact you to make further arrangements. In any of the above events, you will be required to pay the shipping charges incurred before we will reship the order or ship any new orders. You may also be subject to a 20% restocking charge on the returned items.

In Parting, you Oughta...

- ..spend less time worrying about who's right, and more time deciding what's right.
- ..praise in public and criticize in private.
- ..hire people smarter than you.
- ..be modest. A lot was accomplished before you were born.
- ..remember that overnight success usually takes about 15 years.
- ..never underestimate your power to change yourself.
- ..feed a strangers expired parking meter.
- ..let your children overhear you say complimentary things about them to other adults.
- ..own a dog (or two).
- ..watch a sunrise at least once a year.
- ..make it a habit to do nice things for folks who will never find out.
- ..loosen up, relax and enjoy your life.
- ..be brave. If you're not, pretend to be, nobody can tell the difference.
- ..cherish your children for what they are, and not for what you'd like them to be.
- ..come back again soon. We hope you've enjoyed your journey with us.
